DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

The process of managing unwanted waste items that have served their purpose but are no longer useful is referred to as Waste Management. Collecting solid waste materials, processing them, and disposing of them are all part of the solid waste management process. Human interaction with the environment has always resulted in the creation of waste.

Wastes include dead and decaying plant and animal remains, metabolic by-products (faecal remains, excreta, etc.), discarded materials from homes, workplaces, businesses, restaurants, factories, hospitals, pesticides, herbicides sprayed on fields, and many more. This article will teach students about solid waste management, including the many trash management methods and their benefits.

The unwanted or unusable materials that are thrown away after the primary use are called waste.

Advantages of Waste Management

Find below some of the advantages of waste management:

1. Decrease bad odour
2. Reduces pollution
3. Reduces the production of waste
4. It generates employment
5. Produces Energy

Program Outcome:

Waste management involves a process whereby wastes are collected, transported, and disposed of in the best possible way of limiting or eliminating the harmful effect of wastes. This aspect of environmental management is as important as other public amenities or infrastructures without which the life of a contemporary man would be extremely difficult.

This is because studies have shown a direct link between air, water, and land pollution and diseases such as lung cancer, heart disease, cholera, and hepatitis. In addition, climate change and eutrophication are a direct result of water and air pollution. Little wonder why there is a huge disparity in the life expectancy of people in developed and developing countries.

Title- "Diksha- Skill Enhancement program in Schools"

Date: 18-01-2020

Time of event: 10:00 AM

Activity Location: Amlapur Village and Government school of Bidar District

Objective of Program:

1. To know the importance green energies (Solar power)
2. To know the different learning methods (eg. Charts, PPT, Videos)

Importance of Food Preservation:

One of the major hindrances in the upliftment of underserved and unserved Communities in the developing nations like INDIA is the absence and inadequacy of electricity to power technological devices. Inadequate supply from the national grid, Thermal, Hydro Power and Nuclear power generating station has made our nation to look for alternative power supply such as solar energy. Unfortunately, utilization and development of solar energy is rising in other parts of the world but encountered with low pace of development and utilization in India.

Keeping this in mind we the Department of Electrical & Electronics Engineering faculty and students regularly involve in awareness program in many rural areas Government school backward areas ect.. on many different social topics.

One such event was conducted by our students and staff at Amlapur Village and Government school of Bidar District on "Utilization and benefits of Solar Rooftop energy systems" it's Sustainability, Subsidies provided by MNRE & State Government.

Outcome:

The outreach program is developed to enhance the subject's academic skills, leadership qualities, self-confidence, communication skills, managerial skills, and responsibilities toward the rural community.

Impact of Program:

The programme had a positive effect and enhanced the personal growth and social responsibility of the students. It exposed the students to the needs of underprivileged communities around their vicinity.

Program Schedule: Amlapur Village and Government school of Bidar District

Number of Students participated: 34

Number of faculty participated: 03

DEPARTMENT OF MBA

ACY:2019-20

Details of Program:

Lacking vital literacy skills holds a person back at every stage of their life. As a child they won't be able to succeed at school, as a young adult they will be locked out of the job market, and as a parent they won't be able to support their own child's learning. This intergenerational cycle makes social mobility and a fairer society more difficult.

People with low literacy skills may not be able to read a book or newspaper, understand road signs or price labels, make sense of a bus or train timetable, fill out a form, read instructions on medicines or use the internet.

With these objectives in mind, Students of MBA Department, GNDEC Bidar, under NSS UNIT has organized an awareness program in the local village to bring awareness among the people about literacy.

Program Outcome:

1. To enlighten people with education importance
2. Make sure the message reach to every one that education is must.

Objective of Program:

1. To reduce power wastage and efficient usage.
2. To manage resources of the country efficiently.

Importance of REDUCTION IN ENERGY CONSUMPTION:

1. To save the resources of the country.
2. To increase the energy security of the country.
3. To reduce the pollution emitted from Non renewable Energy sources.

Details of Program:

Creating awareness of reduction in energy consumption methods to village people..

Program Outcome:

1. Energy saving by efficient usage.
2. Increases the energy security of the country.
3. Reduction in cost incurred on energy consumption

Objective of Program:

1. The cleanliness campaign of Swachh Bharat Abhiyan was run on a national level and encompassed all the towns, rural and urban. As a part of Swachhata Abhiyan, Swachhata Pakhwada was initiated with the objective of bringing a fortnight of intense focus on the issues and practices of swachhata meaning cleanliness.

Report of activity conducted on

AWARENESS PROGRAM ON SWATCH BHARAT PAKHWAD

NSS unit along with students of civil engineering department has organized an awareness program on SWATCH BHARAT PAKHWAD 10 SEPT 2019 in the Bidar Tq and Dist.: Bidar Karnataka, to bring awareness among the public about the importance of Cleanliness, the NSS volunteers and students have explained about the importance of cleanliness around 120 students participated in the above activity and faculty members guided them during the activity.

Program Outcome:

1. The campaign reaffirmed and reinstated the importance of cleanliness and healthy surroundings and motivated all to work for making "India" a "Clean India".

Program Schedule: Schedule Attached

NAME OF EVENT	ACTIVITY ON CHILDHOOD RESTORED
VENUE	GOVT PRIMARY SCHOOL ALIYABAD, BIDAR Pin Code: - 585403
DATE	16-02-2020
TIME	11:00AM

Details of Program:

The College National Service Scheme (NSS) organized a transformative camp focused on eradicating child labor and promoting education among underprivileged children. The camp, held in a rural area, aimed to raise awareness about the importance of education and address the issue of child labor, which deprives children of their right to education and a proper childhood. The NSS camp brought together enthusiastic college students, dedicated volunteers, and concerned citizens who shared a common vision of creating a society where every child can enjoy their childhood and access quality education. The camp lasted for a week and involved various activities and initiatives to achieve its objectives.

Program Outcome:

1. Successful rescue and rehabilitation of child Labours, providing them with access to education, healthcare, and psychosocial support.
2. Reduction in the incidence of child labour observed in project intervention areas.
3. Improved enrollment rates and retention of children in formal schools, particularly among vulnerable and marginalized communities.
4. Enhanced accessibility to quality education, including infrastructure improvements and the provision of educational materials.
5. Increased awareness among children and families about the importance of education and their rights.
6. Improved livelihood opportunities for parents and caregivers, reducing their reliance on child labour and enabling them to support their children's education.
7. Advocacy efforts contributed to the implementation of stronger legal frameworks and policies to protect children from exploitation and ensure access to education.
8. Inclusion of child rights education in school curricula and teacher training programs observed as a result of policy engagement.

GURU NANAK DEV ENGINEERING COLLEGE BIDAR

MECHANICAL ENGINEERING DEPARTMENT

Objective of Program:

1. To maintain cleanliness in the surrounding environment.
2. To dispose the garbage at proper location.

Importance of DEVELOPING AND MANAGING EFFICIENT GARBAGE DISPOSAL SYSTEM:

1. To protect the environment from pollution.
2. To create employment opportunities for recyclable materials.
3. To reduce the pollution emitted various hazardous materials.

Details of Program:

Creating awareness about various methods of garbage disposal and handling for clean environment.

Program Outcome:

1. Clean and healthy environment.
2. Reduction in diseases due to harmful insects.
3. Protecting human being from spreading of various communicable diseases.

Number of Students participated:60

The banner features the college's name and department at the top. Below this, it states 'ACTIVITY ON' followed by the main title 'Developing and Managing Efficient Garbage Disposal System'. The central graphic includes a funnel diagram of the waste management hierarchy: Prevent, Reduce, Reuse, Recycle, and Recover. To the left, there are images of waste segregation bins for Paper, Glass, Plastic, and Metal, along with a question for discussion: 'How to improve the waste segregation system?'. To the right, there is an illustration of a garbage truck and a person disposing of waste.

Title- "NSS activity on Clean and Green"

Date: 04-02-2020

Time of event: 11:00 AM

Activity Location: Astoor Village, Bidar District

Objective of Program:

1. To know the importance of clean and green of their surroundings

Importance of Clean and Green:

The clean and green ecosystem provides us with fresh air and pollution is also reduced. We can save the planet by conserving trees, natural vegetation, water, natural resources, electricity, and other resources. To control environmental pollution and global warming, we must strictly adhere to all available measures. Everyone should plant more trees in their neighbourhoods to help reduce pollution and the effects of global warming.

Today, a clean and green environment is a basic requirement. Environmental pollution in the form of air, water, and land pollution has hurt life.

Planting more trees and expanding green space is a significant step toward keeping the environment clean and green.

Proper waste disposal of all kinds must be encouraged and, if necessary, rewarded.

Outcome:

The outreach program teaches how to keep the environment clean and green, and responsibilities of people toward the community.

Impact of Program:

Cleanliness is important, for it builds up a healthy environment that facilitates physical and mental well-being and growth. Cleaning the environment is the key to the existence and survival of life on planet earth. Maintaining a clean environment reduces pollution, preserves our biosphere, protects endangered species, and helps preserve the earth's natural resources.

Program Schedule: Astoor Village, Bidar District
