GURU NANAK DEV ENGINEERING COLLEGE BIDAR

Objective of Program:

1. To develop patriotism in students
2. To develop responsibilities towards national service in students.

Importance of BICYCLE RALLY:

1. To contribute in national service.
2. To develop respect towards country and national flag.
3. To develop social responsibilities among students and public.

Details of Program:

Developing Patriotism and celebrating 75th Independence day as a special event..

Program Outcome:

1. Developing Patriotism in students and public.
2. Celebrating 75th Independence day as a special event.

Number of Students participated:100

Number of faculty participated:75

Objective of Program:

1. Awareness of importance of education Education to develop children into good citizens.responsible citizens apply their learning and gained skills to help themselves and others.
2. Swachh Bharat Abhiyan is necessary to memories people their duty to keep their surroundings clean. As a part of society. that open defecation is a big reason for causing diseases and sometimes fatal diseases like cholera, diarrhoea, typhoid etc. Swachh Bharat Abhiyan will help India in becoming open defecation free and rural area to be healthy and happy.

Report of activity conducted on

AWARENESS PROGRAM ON IMPORTANT OF EDUCATION AND SWATCH BHARAT ABHIYAN

NSS unit along with students of civil engineering department has organized an awareness program on importance of education and swacha bharat abhiyan 7th Jan 2022 in the local villages GOVT HPS & RMSA (URDU), CHIDRI Tq and Dist.: Bidar Karnataka, to bring awareness among the students about importance of education and swacha bharat abhiyan, the NSS volunteers and students has approached to the students and explained about importance of education around 90 students were participated in the above activity and 4 faculty members were guided them during the activity

Program Outcome:

1. Education is important in our life because education gives us the ability to change our coming future. We can change the world for something better way
2. To devise a proper, door to door, waste collection and disposal system, both in villages as well as urban areas. To make necessary changes in the local bodies in order to strengthen their functions and efficiency.

SAPLING PLANTATION

The students of Electronics and Communication Engineering department conducted the programme of sapling plantation. This drive was conducted under the programme officer Dr. Kishan Singh along with Prof. Prof.Soni Mankari, Prof.Pradeep Karanje as coordinators.

Tree planting is recognized as one of the most engaging, environmentally-friendly activities that people can participate in to help the planet when done properly. Trees provide numerous long-term and short-term benefits. They not only look nice, but they also remove and store carbon from the atmosphere, slow heavy rain and thus reduce the risk of flooding, improve air quality, and reduce the urban heat island effect by reflecting sunlight and providing shade.

Department of Electronics and Communication Engineering Department

Benefits of Tree Plantation:

They are so valuable and significant that their applications have only grown to meet the demands of our modern lifestyles. Initially, the tree's wood was used as fuel, and the fruits were devoured by people. The shade was utilized to keep cool in the summer and the fire was used to keep warm in the winter.

Program Outcome:

We recognize that one of the most serious issues in the current state is the devaluation of trees. To make our world greener and better, we must pay more attention to tree planting in the future. Individual contributions should be made first. We should also put a stop to tree cutting and remember that without trees, there will be no life. The tree is very important in our lives. Everyone should be aware of the importance of tree planting and should motivate and encourage others to do the same.

Title- "NSS activity in rural areas on Food Preservation & Packing"

Date: 03-03-2022

Time of event: 11:00 AM

Activity Location: Astoor, Bidar

Objective of Program:

1. To overcome inappropriate planning in agriculture
2. To produce value-added products
3. To provide variation in diet

Importance of Food Preservation:

1. Increasing the self-life of foods thus increasing the supply. So many perishable foods can be preserved for a long time.
2. Making the seasonal food available throughout the year.
3. Adding variety to the diet.
4. Saving time by reducing preparation time and energy, as the food has already been partially processed.
5. Stabilizing prices of food, as there is less scope of shortage of supply to demand.
6. Decreasing wastage of food by preventing decay or spoilage of food.
7. Improving the nutrition of the population. Preserved foods help people to bring a variety in the diet, thereby decreasing nutritional inadequacies.

Methods of food Preservation:

1. Chilling or Cooling
2. Drying
3. Pickling
4. Canning

Details of Program:

Creating awareness on food preservation and packing methods.

Program Outcome:

1. Participants could adopt different food processing techniques.
2. Participants were able to preserve food using various methods

Details of Program:

The Digital India campaign is an initiative launched by the Government of India in 2015 with the aim of transforming India into a digitally empowered society and knowledge economy. The campaign aims to bridge the digital divide and promote the development of the country's technology industry and startup ecosystem, among other objectives. With these objectives in mind, Students of MBA Department, GNDEC Bidar, under NSS UNIT has organized Digital India campaign to address the need for digital transformation in various aspects of Indian society and economy.

Program Outcome:

1. To promote the development of the country's technology industry and startup ecosystem, among other
2. To make people aware about what digital India means to all

Title- "YOGA DAY"

Date: 21-06-2022

Time of event: 6:30 AM

Event Type: Offline

YOGA DAY

The theme for International Day of Yoga 2022 is "Yoga for humanity". Yoga is universal — it can be practiced anywhere, at any time, and by anyone irrespective of age, gender, culture or nationality. Yoga is a powerful tool for individuals, communities and countries to improve both mental and physical health.

Yoga has been shown to have immediate psychological benefits, decreasing anxiety and stress, and increasing feelings of emotional and social well-being. It helps prevent and control non-communicable diseases (NCDs) — cardiovascular diseases, cancer, chronic respiratory diseases and diabetes, among others — that are a rising cause of disability and premature death.

Yoga has helped hundreds of millions of people across the world stay healthy during the COVID-19 pandemic. This is consistent with the WHO principle that states, "Health is a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity".

Making yoga a part of our daily activities can help countries around the world achieve the NCD target of 15% relative reduction in physical inactivity by 2030. In India, health and frontline workers at Ayushman Bharat-Health and Wellness Centres encourage the community they serve to adopt yoga to promote health, prevent and manage diseases — including NCDs — and accelerate recovery from ill-health and injuries.

Department of Electronics and Communication Engineering Department

On the International Day of Yoga, let's all celebrate the physical and mental health benefits of yoga and highlight its contributions to lifelong health and well-being for all

They are so valuable and significant that their applications have only grown to meet the demands of our modern lifestyles. Initially, the tree's wood was used as fuel, and the fruits were devoured by people. The shade was utilized to keep cool in the summer and the fire was used to keep warm in the winter.

Program Outcome:

Yoga helps to have immediate psychological benefits, decreasing anxiety and stress, and increasing feelings of emotional and social well-being. It helps prevent and control non-communicable diseases (NCDs) — cardiovascular diseases, cancer, chronic respiratory diseases and diabetes, among others — that are a rising cause of disability and premature death.

Title- "NSS activity on Energy Conservation"

Date: 04-04-2022

Time of event: 11:00 AM

Activity Location: Astoor, Bidar

Objective of Program:

1. To bring awareness on energy conservation techniques

Importance of Energy Conservation:

1. Reduces the carbon footprint
2. Reduces electricity bill/tariff

Methods of Energy Conservation:

1. Replacing Incandescent lamps with LED bulbs
2. Using energy efficient motors
3. Using capacitors
4. Switch off the electrical equipment when not in use.
5. Switch off the fans and lights while leaving

Program Outcome:

1. Participants could adopt different food processing techniques.
2. Participants were able to preserve food using various methods

Number of Students participated: 30

Number of faculty participated: 03
